

DIVISION 7 NEWSLETTER

December 2025

What We Learned

Literacy:

Students have been working hard in phonics, learning to spell heart words, blending sounds and digraphs, and learning lots of new spelling rules. They have also been writing and sharing very detailed stories in story workshop!

Numeracy:

The class has done lots of work with place value, comparing and ordering numbers, and estimating. As the term finishes, we are focusing on addition and subtraction and will continue this learning in the new year!

Social Studies:

Students wrote their own personal land acknowledgements and are continuing to learn about Wet'suwet'en culture.

Reminders

Please bring in permission slips for swimming and fill out the criminal record check if you are volunteering.

Upcoming Events
